Coffee Culture.

The key to success in the raising of coffee is not only to make money out of it, but to handle it to the best advantage and have it command the highest price in gold in the markets of the world.

Do the work systematically by preparing the ground with materials which will insure a fragrant berry and brilliant results in large crops.

Four substances are absolutely necessary to promote a healthy growth, and must be applied if not present in the soil, viz:

Phosphoric Acid.

Nitrogen.

Potash.

Lime.

A FRENCH SALVATIONIST IN ALL ALONG THE DOCKS

TROUBLE.

The Salvationist Army is making itself known in France. A well known medical man of Paris, Dr. Thierry Meig, decorated with the Legion of Honor, had a startling experience the other day when a lady of the French "Army" made her way to his surgery.

Exhausted by marching, hard work, cold damp and privation—in a terrible condition of nervous breakdown—this girl (for she was little more) had actually to be supported in the waiting room by two or three of the crowd who through the famous doctor's clinic. In this case Dr. Thierry Meig at once prescribed Dr. Williams' Pink Pills for Pale People.

In his own words, this treatment "wrought a miracle."

"Dear Doctor," the lady wrote (of course in French) only a few days afterwards, "thanks for the second box of pills which you have sent me. I am not the same person I was. I could never have done the work which I am now able to accomplish. I cannot tell you how much the pills have done for me. I suffered in the head, in the limbs, and especially with extreme nervousness. Under the influence of the pills you gave me I have been able to march, to work hard, and to assist every evening at the services of the army without fatigue."—EN-SIGN BEAUDRY.

Dr. Williams' Pink Pills cure not only nervous breakdown, but impoverished blood, anaemia, pale and sallow complexion, weakness, loss of appetite, shortness of breath, pains in the back, nervous headache, all forms of female weakness, hysteria, paralysis, locomotor ataxia, sciatica, and palpitations. Bear in mind that these little pills are not an ordinary purgative medicine, but a never-failing blood builder and nerve tonic.

Sold by all dealers in medicine, and by the Hollister Drug Company, the Hobron Drug Company, wholesale agents for Hawaii.

ARRIVAL OF KINAU FROM HAWAII THIS MORNING.

Castle Will Get Away Monday—Notes from Mahukona—Kaena Ready for Sea—Vessels in from Kauai.

The S. N. Castle will not get away until Monday or Tuesday. Sugar expected yesterday did not arrive.

The Robert Lewers is ready for sea and will probably get away Monday. She has been a long time in port.

The Mokoli arrived from Molokai this morning with the lightest cargo she has brought in many weeks, 32 bales of wool.

The John G. North, Rasmussen master, arrived at Honoipu, February 25th, one day from Hilo, and sailed on the 3rd inst. for San Francisco with 569 tons sugar, valued at \$30,981.16.

The little inter island steamer Kaena, which has received new engines and boilers and a thorough overhauling, is about ready for sea again. She may go into commission on Monday.

The pilots complain very much of the foul smells that arise from the water where the dredger is at work in the rear of their office. Something must be wrong with the sewerage in that locality.

There was a big influx of sugar this morning. Besides the Kinau's big load, the Mikahala brought 5409 bags, the James Makee 2446 and the Iwalani 4865. The Makee made another of her flying round trips.

The barkentine George C. Perkins, Maas master, arrived at Mahukona on the 2nd inst., three days from Honolulu, in ballast, and sailed on the 9th for San Francisco with 756½ tons of sugar, valued at \$43,690.31.

Among the passengers who arrived by water routes this morning were Deputy Attorney General E. P. Dole, W. H. Rice and C. R. Dement, by the Mikahala from Kauai and W. H. Richard by the Iwalani from the same island.

The steamer Kinau arrived from Maui and Maui ports with 11,816 bags of sugar, 360 bags of corn, 127 bags of coffee and a general cargo. She is discharging sugar at the Oceanic dock, working both hatches and keeping five weighers busy.

GUNBOATS TO BE LAUNCHED.

The Navy Department has been notified by the Union Iron Works of California that the gunboats Marietta and Wheeling will be launched at San Francisco on the 18th of March. These are twin-screw composite gunboats, of 1000 tons displacement, intended for river and shoal water service. Although among the last of the light-draft gunboats to be launched, it is said at the Navy Department that these will be so far advanced when they are launched, the machinery and other internal portions being in place, that there will not be much difference in the time of completion of all of the boats, whether building east or west.

Inquiry here confirms the story coming from Lima to the effect that the State Department has lodged a demand with the United States charge of legation at Lima for the release of the mate of the American bark "Uncle John." MEDAL FOR GOOD SCORES

SENATOR HENRY WATERHOUSE FURNISHES TROPHY.

Conditions Left With Capt. Wall—A Handicap Challenge Shoot Will Probably Be the Plan Selected.

Two new members were received into the Sharpshooters at a meeting of that body last evening. They were Professor Lightfoot and David Wood. It is very probable that Private Schofield, whose time has expired in Company B, will join the Company shortly.

It was decided that at the next meeting of the company, to be held on the second Friday in April, the by-laws would be revised. The present by-laws are rather ancient and the introduction of new military regulations will do away with a number of the articles.

The most important change will be the creation of an honorary roll of membership. The by-laws now in vogue have prevented such a move heretofore.

There is talk of another match between the married and single men. There are two married men to every single man in the Sharpshooters, but notwithstanding this fact the single men have come out victorious in every match heretofore.

Senator Henry Waterhouse has given his check for \$50, which is to be invested in a handsome gold medal and competed for among the Sharpshooters. The Senator has left the conditions entirely in the hands of Capt. W. E. Wall.

Capt. Wall announces that in order that all members might stand an equal show in competing for the trophy, he will have a handicap challenge shoot, the man showing the highest score during a period of six months to be awarded the medal.

REV. JOSEPH H. SMITH.

His Address to the Christian Workers Yesterday.

Rev. Joseph H. Smith addressed the Christian Workers of the city at the Y. M. C. A. at 3:30 p. m. Friday. His theme was "The Character and Compensations of Christian Work." The lesson was John 4:31-38, with special emphasis placed upon the first five words of the 38th verse "I sent you to reap." Christ wanted to impress them with the immediateness of the harvest. We are apt to procrastinate. "Lift up your eyes, and look on the fields; for they are white—ready to harvest." The faith which Christ wished them to have was faith for immediate results. We sometimes carry the patience of faith too far; we substitute the patience of faith for the precipitancy of faith. We are called, beloved, to the most exhilarating part of the labor, viz: that of reaping; of harvesting. This Christian dispensation is the dispensation of harvest pre-eminently.

Evangelization is our calling. At every service there is somebody in the congregation who is susceptible.

What was Christ's joy? It was the joy of service; it was the joy of redeeming mankind. If we share his service and suffering, we shall also share his joy and crown of rejoicing. It is ours to join in the Messianic joy. "My meat and my drink is to do the will of him that sent me," said Christ. When we too can really say that, it means that there has been such a shedding abroad of the love of God in us that Christ's work becomes our passion. Now I would have you distinguish between evangelical and evangelistic work. Much of church work today is evangelical only and not evangelistic. Much of church work, or the running of its machinery, is often done by men who really do not know Christ as an every day personal Savior from sin. Remember that churchianity is not Christianity—Christianity means vital connection with Christ.

Benson, Smith & Co. desire us to publish the following extract from a letter of Chas. M. Guffeld, of Reedley, Fresno County, Cal., as they handle the remedy referred to and want their customers to know what a splendid medicine it is:

"It is with pleasure I tell you that by one day's use of Chamberlain's Cough Remedy I was relieved of a very severe cold. My head was completely stopped up and I could not sleep at night. I can recommend this remedy." A cold nearly always starts in the head and afterwards extends to the throat and lungs. By using this remedy freely as soon as the cold has been contracted it will cure the cold at once and prevent it from extending to the lungs. For sale by all druggists and dealers; Benson, Smith & Co. agents for the Hawaiian Islands.

Public Opinion

Public opinion is the highest commendation, as is attested by the fact that the Pabst beer exceeded by 49 per cent the amount of beer sold by any similar institution in the world. This famous beer is on draught at the Royal, Pacific and Cosmopolitan saloons.

They All

"There are fads in medicine as well as in other things," said a busy druggist, "but the most remarkable thing about Hood's Sarsaparilla is that customers who try other remedies all come back to Hood's, and this is why the enormous sales of this medicine keep up while others

Come

and in a short time go out of sight entirely, to be heard from no more."

"Why is it?" "O, simply because Hood's Sarsaparilla has more real curative merit than any medicine I ever sold."

This is of daily occurrence in almost every drug store. Hood's Sarsaparilla is the standard remedy which has cured more sickness, relieved more distress and made more happiness by bringing people

Back to

health than any other medicine. Its wonderful cures of the worst cases of scrofula, running sores, ulcers, salt rheum, etc.; of dyspepsia and other troubles where a first class tonic and aid to digestion was needed; of catarrh, rheumatism, malaria and other troubles arising from or promoted by impure blood, have made
